

How to connect the wire and maintenance for the lighting mirror

WARM TIPS

1. When clear the surface and the edge of the mirror, please use the cotton cloth with water softly. If only to clear the dust of the frame, please don't use the cloth with any liquid things.
2. Majority of the patented cleaners are not natural, they could have chemical reaction with the mirror which with silver coating. So such cleaners can't be used to clear the mirror.
