

Shower Trays

SLATE

Description

Shower tray made of resin, which allows you to customize its length, from 1101 to 1200 mm and its width, from 751 to 800 mm. The FINISH STUDIO trays feature a slate texture available in nine finishes. Supplied with grid in the same finish as the tray. All product measurements are nominal and may vary within the tolerances established on the product. All measurements of the plans are expressed in mm. Install the product following the recommendations in the installation manual.
